***Repeat Memory Verse**

First 10 words are vocabulary words. Each vocabulary word has to have 1 definition from the dictionary. Definitions must include: spelling word, part of speech (verb, noun, etc.), and definition. Assignments are due on Monday morning by 9:00 am. Sentences for vocabulary words will be completed in class. Students that do not complete assignment by Monday morning will not be able to take the spelling test on Friday morning.

First 10 words are vocabulary words. Each vocabulary word has to have 1 definition from the dictionary. Definitions must include: spelling word, part of speech (verb, noun, etc.), and definition. Assignments are due on Monday morning by 9:00 am. Sentences for vocabulary words will be completed in class. Students that do not complete assignment by Monday morning will not be able to take the spelling test on Friday morning.

Spelling Test	#	<i>Memory Work does not have to be known verbatim (known by heart), but the concept has to be generally understood. It is important that you spend the time with your child and help him/her with these simple rules. Good Luck.</i>
Week 1	1	If a word or syllable has only one vowel and it comes at the beginning or between two consonants, the vowel is usually short (am, is, bag, fox).
Week 2	2	When you add a "silent e" to a short vowel (a, e, i, o, u) you make the first vowel long. A single consonant is usually placed between the vowel and the "silent e" to make it long, but long "e" usually has the silent vowel next to the letter "e."
Week 3	3	The letter "e" can be made long by adding an "e" or "a" (steal, tree). Long "e" usually has the silent vowel next to the letter "e".
Week 4	4	If a word or syllable has one vowel and it comes at the end of the word or syllable, the vowel is usually long (we, go, pony).
Week 5 and 6	5	Consonant Blends are two consonants put together where you can hear both sounds (black, brat, crust, drug, and place).
Week 7 and 8	6	The Consonant Digraph is a sound formed by combining two consonants to form a new sound. The digraphs are ch, gh, ph, sh; th, wh , and ng and they are never divided. Parent Note: A mnemonic for the digraphs is The Tough Witch Whacked the Fish King. Consonant Digraphs are never divided.
Week 9	7	The letter "c" has no sound on its own and is either the sound of "s" or the sound of "k." If e, i, y follow the letter "c" than it will have an "s" sound (city, cent, cigar).
Week 10	8	If "e", "i", "y" follow the letter "g", then "g" can be soft and sound like "j". If another letter follows "g" or there is no letter after "g" then "g" sounds like a "ghuh" (wage, gym, pig, and bug). This rule does not always work.
Week 11	9	There are three ways to represent the "k" sound": k," "c," "ck." If you want a "k" sound at the beginning of a word and the first vowel sounds are "e", "i", "y", then you have to usually use the letter "k" (kiss,keg,kick). If a word has, a "k" sound at the end of the word and the vowel is short then "ck" is used at the end of the word. If the word has a long vowel sound then a "k" is used (rack, rake, tick, tike).

Week 12	10	The final “ch” of a word follows a short vowel, a “t” or an “n” is often inserted so the vowel will sound short (catch, munch). Some speaker pronounce this “t” or “n” , others do not. Both pronunciations are easily understood.
Week 13	11	If “y” is the last and only vowel in the word, then the “y” will have a long “i” sound. If “y” is the last and second vowel, then “y” will have a long “e” sound (fly, silly, yell). If the “y” is in front of a word than it is a consonant.
Week 14	12	If a syllable has a short vowel and ends with the letter “y” then the last consonant between the short vowel and the “y” has to be doubled (penny, chilly). If the syllable has a long vowel sound, do not double the consonant (hazy, baby).
Week 15	13	When the vowels “e”, “i”, “u” have the letter “r” after them they all sound like “er” . When “r” is with the letter, “an” it sounds like “ar” in “car,” and when it is with “o” is sounds like “or” as in “for.”
Week 16	14	When the vowels in “er,” “ir”, “ur”, “or”, “ar” are long they have different sounds. Long “ar” sounds like “are” or “air.” Long “er” sounds like “air” or “ear.” Long “ir” sounds like “ire.” Long “ur” and “or” sound like short “ur” and “or” (pure, curl, four, for, their, chair, bear, peer, fire, etc).
Week 17 and 18	15	There are five main diphthongs : oi(oy), au(aw,al), ei(ey), ou(ow), and oo(ew), and they only count for one vowel sound, even though there is a slight break in the sound. The vowel diphthongs “oi” and “oy” sound the same, but “oi” is usually in the middle of the word and “oy” is used at the end of the word (boil/boy). The letter L and N will sometimes let ow and aw in the middle of the word (lawn, crawl, etc). The vowel diphthongs “aw,” “au,” and “al” have the sound you hear in “saw” and “caught.”
Week 19 and 20	16	To make a word plural add “s” (cats, kites, dogs). If the word ends in x, z, ss, sh, ch add “es” to make it plural (foxes, dresses, peaches).
Week 21	17	If a word ends in “y” preceded by a consonant, change the “y” to “i” and add “es” (flies, fairies, babies). If there is a vowel before the “y” just add the letter “s” to make it plural.
Week 22	18	If you need to keep the last vowel short and you are adding “ing”, “ed”, “er”, and “y” to a word, you must double the final the final consonant to keep the last vowel short (hop—hop-ping). To add suffixes when a word ends in silent “e,” drop the “e” before adding a suffix that begins with a vowel (baking, taped, latest).

Week 23	19	If a word ends in "f" or "fe," change the "f" or "fe" to "v" before adding "es" (leaf-leaves).
Week 24	20	When "ed" is added to a base word ending in "d" or "t," "ed" will sound like itself. If "ed" is added to words that end in "unvoiced consonants" (f, k, p, t, s), then it will sound like "t." All other "ed" endings sound like "d."
Week 25	21	"Q" is always followed by "u" in English words (quilt).
Week 26	22	The "le" ending does not cause the final consonant before it to be doubled if that consonant is the second of two consonants (dangle), but if you need to keep the last vowel short, you need to double the final consonant (bubble).
Week 27	23	If a single syllable word ends with "l, f, or s" and has one vowel, you double "l, f, or s" at the end of the word (cuffs, mess, bell).
Week 28	24	An "s" added to the end of the word will have a "z" sound, unless the "s" follows: f, k, p, or t. (cuffs, racks, bumps, hats).
Week 29 and 30	25	Divide a compound word between the words that make up the compound word (in/to, sun/shine). When necessary, divide the smaller words into syllables (un/der/ground). A syllable can only have one vowel sound.
Week 31	26	Divide a word between double consonants , each syllable gets a consonant and the vowel in the first syllable is short (hop-ping, fib-ber, tap-ping).
Week 32	27	When two or more consonants come between two vowels in a word, the word is usually divided between the first two consonants (al/most, doc/tor). A syllable can only have one vowel sound. Words with two or more vowel sound have more than one syllable.
Week 33	28	When a single consonant comes between two vowels in a word, the word is usually divided after the consonant if the first vowel is short (drag/on). If the vowel is long, then the word is divided after the long vowel (pi-lot).
Week 34	29	When two vowels come together in a word and are sounded separately, divid the word between the two vowels (gi/ant, sci/ence). Digraphs and Consonant Blends are never divided.

Week 35	30	A contraction is a short way of writing two words. It is formed by putting two words together and leaving out one or more letters. Use an apostrophe (') to show where something is left out (I am/I'm, did not/didn't)
Week 36	31	Vowel combinations “ea,” “ei,” “ai,” “ey,” and “ay” also make the letter “a” long. Combinations “ey” and “ay” is usually used at the end of a word to make the long “a” sound (rain, ray)
Week 37	32	Most English words do not end in “i” , “u” , “v”
Week 38	33	When a word has a suffix with a vowel sound in it, divide the word between the base word and the suffix. If it has a prefix, divide the word between the prefix and the base word.
FYI		If word ends in “o” just add a “s” to make it plural, but some “o” words need “es” (tomato-tomatoes)
FYI		Homonyms/Homophones (same-sound) are words that sound alike, but are spelled differently and have different meanings (red-read, lie-lie)
FYI		The “i” and the “o” may say their names if they are followed by two consonants (child, old)
FYI		Sometimes “ea” has a short “e” sound, as in head , or a long “a” sound, as in break .

Memory Work does not have to be known verbatim (known by heart), but the concept has to be generally understood. It is important that you spend the time with your child and help him/her with these simple rules. Good Luck.
